Spring Vacations Concluded

CHARLOTTE

Dr. MacDonald Moves
MiraCosta to Aliso

"It is with extreme regret that I must announce Spring Vacations has necessarily been canceled for all Sophomores now attending MiraCosta College," Dr. John MacDonald, Mira Costa President declared yesterday.

Through an error in gymnasium reservations the United Anti-Smout League will hold their temperature rally solely in the period normally set aside for graduation ceremonies, and once this gets around traditionally the location of these exercises, the administration has come to the conclusion that graduation must be held two weeks earlier than originally anticipated. As a result the gymnasium will be available, Dr. MacDonald elaborated.

In order for Sophomores to complete the number of class hours required for graduation this semester, they will have to attend class during the formerly planned exams. Freshman, on the other hand, will only be required to attend those classes in which Spring exams are present in order to keep from falling a fortnight behind.

If they need not attend those classes composed only of Freshmen, which will proceed as planned — if they do not attend the others, they will have a forlorn chance to graduate slowly.

To quiet protests of self-righteous student agents, Dr. MacDonald quickly promulgated the words that have their Easter Vacation during the first week of June while the Fryers complete their scheduled classes.

Astrology 13A
San Class in Orbit

Due to the fact that the new planetarium donated to the college was not completed if not put in immediate use, a new course has been added to the curriculum, the administration has announced in a press conference yesterday.

The course, Astrology 13A, numbered students will give only 1½ because of the late semester start. The Board of Trustees spared no expense in obtaining the best qualified instructor in this field; Sir Thomas A. Gazer of the famed Salem Institute of Astrology in England will be imported for this purpose.

The class will meet two nights a week, Wednesday and Saturday from 8 p.m. to 1 a.m. The regular subject schedule has been revised to include the astrology program.

In order to ensure enough students will enroll to fill the class, it has been announced that a special fee of $3 will be necessary for graduation. This regulation applies to the class of 1966.

The final exam will consist of plotting a detailed study of the planet Mars, creating charts, revolution diagrams, diameter expansions and concentric in-versions in ratio to Lavel's Law of Movement. Neatness and originality will count heavily as well as correctness.

TANK THREAT

Imminent Innundation?

A serious crack has recently been discovered in the city water tank located roughly at the Southwest corner of the campus at approximately 120° West Longitude and 33° 43'38" North Latitude. You may have noticed it. It's big and gray and made of cement.

Well, anyway, the water tank has a crack in it. In an effort to determine the cause of the fault, surveyors discovered that 3,000 local residents flushed their toilets simultaneously during a Fletcher Castor, TV. commercial, creating an intolerable suction within the huge tank and a consequent disruptive force sufficient to split the side of the massive tank.

If the wall of the water tank should give way, a one-splash flash, reminiscent of the famous Johnstown Flood, would overwhelm the campus.

The water might engulf MCC's campus temporarily with a 20-22 foot wall of water, or it might cascade on Victor Drive, washing off all dead cats and stuff.

Civil engineers, in an effort to stop the disastrous flooding, have been called in. Only Palomar College, in a recent move to boost its overall image, has been able to obtain the services of such people as experts. The solution to the crisis is yet another addition to the growing campus of MiraCosta College. We must accept the addition in the vein of higher learning.

Palomar Pleads Peace
in Recent Annex Move

Dr. Huber

Palomar College, in a recent move to boost its overall image, has submitted to the California State Board of Education a request that it be allowed to become a branch member of MiraCosta College. It was announced Tuesday by College presidents Dr. Frederick B. Huber, Palomar, and Dr. John MacDade, MiraCosta.

MiraCosta College president John MacDonald, in commenting on the move, said, "This action by Palomar College comes as no surprise to us, for we have long felt the depressed area in which the school is located cannot compete with the raffled air of MCC."

Dr. MacDade, in a rare moment of candor, emphasized that MiraCosta College students must be friendly to the new east branch. "We must not bare a grudge against these people, for it should be said they recognize a good thing when they see it."

"Remember, quasitotal dignity should be valued only at the expense of inconstant hyperboliness," he reflected in a burst of rhetoric.

Recent problems haunting Palomar have spilled up the merger of crack two great entities: Palomar's athletic endeavors, which recently have run an anaemic second to MCC teams; faculty salary discontent and student apathy in school matters all have contributed.

This move by Palomar College to MiraCosta makes it possible for students to attend the university's branch campus in a matter of six months.

PASS YOUR BAGS MEN!

New Draft Quotas Will Take Its Toll

Selective Service headquarters yesterday announced that due to the critical manpower shortage in Viet Nam, slight modifications have been made in present draft quotas.

These new draft quotas, which in one month will double the number of men called to active duty, have necessitated a change of attitude toward the policy of student defectors.

No longer can a young man attend college in order to avoid the draft. A student must meet specific requirements before the local draft boards will consider giving him a student deferment.

They are:

1. When the registrant has successfully completed his first year of college and has achieved a 3.7 grade point average, with a scholastic standing within the upper one-twentieth of the male students in his class.

2. When the registrant has attained a score of 95 or more on the Selective Service qualification test.

3. When the registrant writes to his local draft board a notice of intent of his enlistment, upon graduation, for a four-year tour of duty.

4. When the registrant has a physical peculiarity (such as a missing leg, terminal cancer, or buck teeth) which would otherwise incapacitate him for training.

5. When the registrant has written permission from his mommy or daddy or guardian for him to continue his educational training.

Certain MiraCosta students, as well as ex-students, were responsible for the recent outbreak of selective service card burnings.

CRACKED TANK — College officials are worried over the dangerous, new crack in the campus water tank. Civil engineers have been called in an effort to stop the tank from breaking and flooding the campus while students are attending a circulation under the Kenneth R. Oliver award in the Chariot. It was reviewed by the Daughters of the American Revolution, as well as praised is its "staying put" qualities in case of hurricane.

Chariot Wins Again

Bon Voyage Formal Reset

A campus topic for the last few weeks has been the traditional Bon Voyage Formal which was once set in the Ken Thi Room of the Camarata Inn at Mission Beach.

Due to some last minute juggling, the DAR award, which is given to those who have a memorable evening in store for them aboard a Matson Liner's Mystic Room.

The ship will cruise around Catalina Island for five hours while the dance is held in the exotic liner's Mycisc Room.

Bon Voyage to those lucky couples who have a memorable evening in store for them aboard a Matson Liner's Mystic Room.

The ship will cruise around Catalina Island for five hours while the dance is held in the exotic liner's Mycisc Room.

**The Chariot**

**Footprint Reflections**

by Bruce & Darrell

Far from our past policy of frivolous banter, this week we dedicate our column to a much more worthy — and saddening — cause. The untimely and unfortunate death of a dear friend has left a hollowed-out, an emptyness in our hearts, that may never be filled.

It is not our intent to mourn — terminal illness, death is a joyful thing, to whom life was meant to be savored and enjoyed with zest and gusto — and to whom tears were the strain of unwelcome pity.

_A.F.P. Gone_

Albert P. Farley has passed on to his last reward.

Farley’s life was truly a Horatio Alger success story. Born of poor, humble parents, he struggled against impossible odds to become a valuable member of his community (somebody had to do those things). He was a widely traveled man — Nevada, Tijuana, Baja Sur, Tijuana, Vain, and Tijuana and even when he couldn’t be on the open road, he would often let his mind wander.

But we cannot believe that Albert P. Farley died because he was bigger than life. One thing is certain, Albert Farley will not be dead as long as the qualities of courage and greatness are recognized and admired by the minds and hearts of free men everywhere. We who loved him will not die in vain because he faced, it he was a nasty old man.

While Bruce quietly dumped Farley into the city water tank, Darrell recited the age old words to ashes to ashes, dust to dust, to the cowardly and make friends.

_In His Memory_

It is our contention that the water tank — now the eternal dorm room of a man who must keep until school is out — be recognized as a shrine dedicated to the high ideals of farley and education, and things like that. It is our further intention to form an Albert P. Farley Memorial Fund. Every dollar goes to the water tank. Darrell recited the age old words to ashes to ashes, dust to dust, to the cowardly and make friends.

**LETTERS TO THE EDITOR**

Dear Readers:

Many complaints have been made against the cowardly Chariot staff as to its refusal to answer any and all letters submitted. In an effort to satisfy these demands, here are our answers to today’s letters:

_Do what do you mean we didn’t print your letter?_ 

_Ed. Well stated._

_Ed. Bruce and Darrell who?_ 

_Ed. Yes and no._

_Ed. Our editorial policies keep us from replying to such vile letters._

_Ed. You will find them located in each building on the campus, and yes, even at your desk._

**The Fletcher Lights**

_Ed. No. Mrs. Peck is not the real originator of Batman. She did, however, serve as a special story consultant for a number of moments in the mid-fifties._

_Ed. Okay, lady, here is your name in print: Larry Scott, of the City Water Tank. Ed. Other material essential for a sound education._

**RESURGEAT IN PACEM**

Do you feel that being classified as a worthy member of society is important? So do I that you have matured during your first year at MiraCosta College?

Fred Swick

Phil Breck

Bruce & Darrell

Ed: Well stated.

Ed: No, Mrs. Peck is not the real originator of Batman. She did, however, serve as a special story consultant for a number of months in the mid-fifties.

Ed: Okay, lady, here is your name in print: Larry Scott, of the City Water Tank. Ed: Other material essential for a sound education.

Ed: Our editorial policies keep us from replying to such vile letters, especially from a terminal Halitosisiac. We hope that everyone in the entire world will be a success.

It is our further intention to form an Albert P. Farley Memorial Fund. Every dollar goes to the water tank. Darrell recited the age old words to ashes to ashes, dust to dust, to the cowardly and make friends.

**New Library Books**

MiraCosta College received more books recently than at any time in the past 20 years — approximately $83,000 in new books, most of which were purchased across the southern border.

The library also has subscribed to many newspapers that will arrive sometime after Easter vacation.

"We have increased the library's budget by $30 or $40 to give the student the reading material essential for a sound education," said Mr. Myron Izzadon, Humanities professor.

"The Spy Who Came in Out of the Cold Because Someone Passed His Union Test." Other materials include "American Revolution" and "Solving Devices of the U.S. Government." Academy.

"Also "Touring Viet Nam With Honolulu. "Denny Hall," "Dewey and Nixon Victory Speeches." 

"After Watts, Watt?" and "San Francisco Taught."

**Request for Excision**

**OH!OH!**

MCC Divoteers Upset Tijuana Tech

McWinters Open
‘66 Season Friday Against Comets

MiraCosta College head tidily- winked coach Jeanne Ryan reported her 18-man tidily-winked team will be ready for the season opener with cross-county rival Palomar College next Friday at the Oceanside USA.

The team has been practicing in the AS Student Center from 11 a.m. to 1 p.m., using the soup cups targets.

Coach Ryan said “The boys have stronger fingers this year and should take the PSC championship hands down.”

Several looked impressive in practice, John Veigel appears to have regained the golden touch that enabled him to win the California Junior championship in 855. Cap Hauper pointed out that he will challenge Veigel for number one man. Expected to join the roster later in the season is Bill Brown, suffering from a torn hamstring.

BULLETIN
Bill Bradley, famed American basketball player at Princeton last year, will take over basketball coaching duties at MiraCosta next season.

Bradley is now studying in England on a Rhodes scholarship at Oxford University.

He has formed his own team, the noted athlete is gaining fame in Belgium and Italy where he is a pro performer. He said that he planned to enroll his team at MCC. Five players are expected to be posted.

The signing of a four-year contract with withdrawal from the national and state scholarships is expected to take over basketball coaching duties.

Mills, Snell Head
Track Talent List

Track participation at MiraCosta College will pick up in the next few weeks as head coach C. K. Yang has enrolled a few prominent track stars from the international list.

Arriving after Easter vacation is the tall, slender, diving, 5'11" jumper who last year competed in the mile in 3:24.7.

Presently in Wayzata, Minnesota, he found substantial offers from MCC officials helped him accept a $100,000 athletic scholarship.

Billy Mills, Marine Corp athlete in the distance events, has also enrolled pending discharge next week.

Both are expected to take over basketball coaching duties.

Sports officials throughout Southern California feel that if Spartan tracksters continue their drive, an All-State Junior College Championship is in reach.

In a recent press interview with the national and state television cameras, coach Yang stated, “If China

BULLETIN
Discovery that MiraCosta College is sitting on a vast oil field greater than Signal Hill in Long Beach has revised building plans for campus expansion. Here new trustee-approved developments:

A $20 million Fieldhouse complete with three swimming pools, two practice gyms, a gymnastics wing, standard basketball court with seating for 18,000.

Structure will be south of the baseball diamond.

A $10 million stadium seating 25,000 located north of present athletic field.

A 7,000-seat auditorium to complete Fine Arts Center. Structure will have disappearing stage, latest audio equipment, air conditioning, $3 million Art Gallery, 300-seat Little Theatre.

The campus will be completely rebuilt in pre-formed concrete for a student dormitory.

They will replace the Spartan tennis courts.
